

# Contents

Chapter 1	<b>Historical Development</b>	
	Concept .....	1
	Characteristics of Computer .....	2
	Application of Computer .....	4
	How Does Computer Work? .....	5
	Evolution of Computer .....	6
	History of Computer and Computing .....	6
	<i>Mechanical Calculating Devices</i> .....	6
	<i>Electro Mechanical Computers</i> .....	9
	<i>Electronic Computers</i> .....	9
	Generations of Computers .....	10
	<i>First Generation Computers</i> .....	11
	<i>Second Generation Computers</i> .....	12
	<i>Third Generation Computers</i> .....	12
	<i>Fourth Generation Computers</i> .....	3
	<i>Fifth Generation Computer</i> .....	13
	Types of Computer .....	16
	<i>On The Basis of Work</i> .....	16
	<i>On the Basis of Size</i> .....	17
	<i>On the Basis of Brand</i> .....	20
	<i>On the Basis of Model</i> .....	20
	Questions .....	21
Chapter 2	<b>Introduction to Computer Systems</b>	
	Building Block Diagram of Personnel Computer .....	22
	<i>Input Unit</i> .....	22
	<i>Central Processing Unit (Process)</i> .....	23
	<i>Auxiliary Storage</i> .....	24
	<i>Output Unit</i> .....	24
	<i>Data and Control Flow</i> .....	24
	Hardware, Software and Human ware .....	24
	<i>Hardware</i> .....	24
	<i>Software</i> .....	25
	<i>Firmware</i> .....	25

PC Software .....	25
<i>Type of Software</i> .....	26
<i>Utility Software</i> .....	27
<i>Application Software</i> .....	27
Computer System Accessories/Devices .....	28
<i>Input Accessories /Devices</i> .....	29
<i>Processing and Storage Accessories/ Devices</i> .....	33
Computer Coding Scheme .....	34
Types of Memory .....	34
<i>Internal Processor Memory</i> .....	34
<i>Primary Memory</i> .....	35
<i>Secondary Memory/External Memory</i> .....	37
<i>Output Accessories/Devices</i> .....	40
Questions .....	45

### Chapter 3 **Programming Preliminaries**

Introduction to Program and Programming Language .....	46
Types of Programming Languages/Generation of Programming Languages .....	47
<i>Machine Language</i> .....	47
<i>Assembly Language</i> .....	48
<i>High Level Language</i> .....	49
Fourth Generation Language .....	50
Fifth Generation Language (FGL) .....	51
<i>Features of FGL</i> .....	51
Program Development Tools .....	51
<i>Algorithm</i> .....	51
<i>Flowchart</i> .....	53
<i>Pseudocode or Structured English</i> .....	67
<i>Comparison between Flowchart and Algorithm</i> .....	68
Assemblers, Compilers and Interpreters .....	68
Program Development Methodologies .....	69
<i>Modular Programming</i> .....	69
<i>Structured Programming</i> .....	70
<i>Top-down and Bottom-up Approach</i> .....	70
<i>Object Oriented Programming (OOP)</i> .....	72
ASCII (American Standard Code for Information Interchange) .....	73
<i>Unicode</i> .....	73
Software System Development Phase (Phases of SDLC) .....	74

<i>System Study</i> .....	74
<i>System Analysis</i> .....	75
<i>System Design</i> .....	75
<i>System Development</i> .....	76
<i>Testing</i> .....	76
<i>Implementation</i> .....	77
<i>Maintenance and Review</i> .....	78
Text Editor .....	78
Questions .....	79

Chapter 4 **Introduction to C**

Introduction .....	81
<i>Overview</i> .....	81
<i>History</i> .....	82
Features of C Language .....	82
Advantages of C Language .....	82
Disadvantages of C Language .....	83
Structure of C Program .....	83
<i>Compiling Process</i> .....	84
<i>Header Files</i> .....	86
<i>C Preprocessor</i> .....	87
Questions .....	88
Fundamentals of C .....	89
Character Set used in C .....	89
Comments .....	90
Tokens .....	90
Keywords or Reserved Words .....	90
Identifiers .....	91
Data Types in C .....	91
<i>Primary Data Types</i> .....	92
<i>Secondary Data Types</i> .....	92
Variables .....	93
Constant .....	94
Statements .....	96
Questions .....	97
Operators and Expressions .....	98
Operator .....	98
<i>Precedence &amp; Associativity</i> .....	103

Expressions .....	103
Type Casting and Conversions .....	105
<i>Implicit Type Conversion</i> .....	105
<i>Explicit Type Conversion</i> .....	105
Introduction to Library Functions .....	106
Questions .....	106
Input/Output (I/O) Functions .....	107
Character Input / Output .....	107
<i>getchar</i> .....	107
<i>putchar</i> .....	107
Formatted Input / Output .....	108
<i>scanf()</i> function .....	108
<i>printf()</i> function .....	109
<i>gets()</i> .....	110
<i>puts()</i> .....	110
Questions .....	113
Control Structures .....	115
Decisions .....	115
<i>Selection Statement</i> .....	115
<i>else if Statement (else if ladder)</i> .....	121
<i>Switch case Statement</i> .....	123
Looping .....	128
<i>Types of Looping Statement</i> .....	129
Questions .....	143
Functions .....	149
Concept of Function .....	149
How a Function Works? .....	150
Components of function .....	150
<i>Function Prototype</i> .....	150
<i>Function Definition</i> .....	151
<i>Calling a Function</i> .....	152
The Return and void Keyword .....	153
Function Call by Value .....	153
Function Call by Reference .....	155
Types of functions .....	155
<i>Functions with No Arguments and No Return Value</i> .....	155
<i>Functions with Arguments and No Return Value</i> .....	156
<i>Functions with Arguments and Return Value</i> .....	157
Function and array .....	158
Recursion .....	160

The scope and lifetime of variables in functions .....	160
<i>Automatic Variables</i> .....	161
<i>External Variables</i> .....	162
<i>Static Variables</i> .....	163
<i>Register Variables</i> .....	164
Questions .....	166

Chapter 5 **Arrays and Strings**

Definition of Array .....	167
Why do we need array? .....	167
Types of Arrays .....	168
<i>One Dimensional Array</i> .....	168
<i>Two Dimensional Array</i> .....	172
String .....	177
<i>Initializing Strings</i> .....	177
<i>Arithmetic Operations on Characters</i> .....	177
String Functions .....	178
<i>strlen() Function</i> .....	178
<i>strcat() Function</i> .....	178
<i>strcmp() Function</i> .....	179
<i>strcpy() Function</i> .....	180
<i>strlwr () Function</i> .....	180
<i>strupr () Function</i> .....	181
<i>strrev() Function</i> .....	181
Questions .....	186

Chapter 6 **Structures and Unions**

Structure .....	188
<i>Features of Structure</i> .....	188
<i>Declaration of Structure</i> .....	189
<i>Memory Allocation of Structure</i> .....	190
<i>Initializing Structure</i> .....	191
Arrays of structure .....	192
<i>Structure within a Structure</i> .....	193
<i>Functions and Structures</i> .....	194
<i>Pointer to Structure</i> .....	195
Union .....	195

<i>Differences between Array and Structure</i> .....	196
<i>Differences between Union and Structure</i> .....	196
Questions .....	199

Chapter 7 **Pointers**

Definition of Pointer .....	200
<i>Features of Pointer</i> .....	201
Address (&) and indirection (*) operator .....	201
<i>Declaration of Pointer</i> .....	201
Pointer Assignment .....	202
<i>Pointer Arithmetic</i> .....	202
<i>Pointer Comparison</i> .....	203
Array and Pointers .....	204
Multiple Indirection .....	205
Pointer and Function .....	206
Dynamic MemmoryAllocation Using Pointers .....	207
Questions .....	210

Chapter 8 **Files and File Handling**

Definition of Pointer .....	212
Concept of Data File .....	212
<i>File Types</i> .....	213
<i>Modes of file</i> .....	213
Random Access to Files .....	217
<i>The rewind() Function</i> .....	218
Questions .....	223
<b>Old Questions</b> .....	<b>224</b>
