

CONTENTS

CHAPTER 1

Algebra

1.1	Functions	2
1.2	Polynomials	14
1.3	Sequence and Series	30
1.4	Linear Programming	66
1.5	Equations and Graphs	75

CHAPTER 2

Matrix

2.1	Multiplication of Matrices	90
2.2	Solving Simultaneous Equation using Matrices	100

CHAPTER 3

Coordinate Geometry

3.1	Angle between Two Straight Lines	116
3.2	Pair of Straight Lines	131
3.3	Circle	145

CHAPTER 4

Trigonometry

4.1	Compound Angles	160
4.2	Multiple of Angles	173
4.3	Sub-multiple Angles	189
4.4	Transformation of Trigonometric Formulae	201
4.5	Conditional Trigonometric Identities	216
4.6	Trigonometric Equations	227
4.7	Height and Distance	239

CHAPTER 5

Transformation

5.1	Combination of Transformations	262
5.2	Transformations Using Matrices	279

CHAPTER 6

Vector

6.1	Vector	294
6.2	Application of Vector in Geometry	309

CHAPTER 7

Statistics

7.1	Mean Deviation	330
7.2	Standard Deviation	336
