

Contents

Chapter 1

INTRODUCTION TO PERSONAL COMPUTER

Concept	1
Advantages of Computer	2
Disadvantages of Computer	3
Characteristics of Computer	3
Application of Computer	5
A Brief History and Generation of Computer	7
Business Application of IT	8
Business & Technology Change	10
Questions	13

Chapter 2

UNDERSTANDING THE COMPUTING DEVICES

PC at a Glance	14
How Does Computer Work?	17
Building Block Diagram of Personnel Computer	17
Computer System Accessories/Devices	20
Types of Computer	36
Points to Consider When Buying a New Computer	42
Computer Networking	43
Communications Channel	47
Computer Network	50
Network Types	50
Network Topology	56
Protocol	60
Business Applications of Telecommunication/Network	61
Questions	62

Chapter 3

COMPUTER SOFTWARE AND OPERATING SYSTEM

Introduction	63
System Software	64
Assemblers, Compilers and Interpreters	67
Application Software	67
Operating System	71
Introduction	71
Organization of OS	71
History of OS	71
Types of OS	72
Functions of OS	75
Some Technical Terms	76
MS-DOS	78
DOS Commands	79
Windows XP	88
The Desktop Contains	88
The Start Menu	89
Understanding Icons	89
Understanding the Taskbar	90
Log off and Switch Users	90
Turn Off and Restart the Computer	91
Exploring Programs	91
Sizing Windows	92
Moving a Window Using the Title Bar	92
Tiling and Cascading Windows	93
Switching Between Windows	93
Switching Using the Keyboard Method	94
Introduction to the Control Panel	94
Navigate the Control Panel	94
Changing the Wallpaper	95
Advanced Users	96
Changing the Screensaver	96
File Management	96
Creating, Renaming, and Deleting Folders	99
Exploring My Computer	100
Selecting More Than One File or Folder	100

Choosing Views	101
Adding a Shortcut	101
Right-click to Add a Shortcut	102
What is the Recycle Bin?	102
Opening the Search Companion	103
The Printers and Faxes Folder	104
What are Systems Tools?	104
Questions	107

Chapter 4

PROGRAMMING LANGUAGE

Concept	108
Computer Language	108
Machine Language or First Generation Language	110
Assembly Language or Second Generation Language	111
Procedural Language or Third Generation Language	112
Problem Oriented Language or Fourth Generation Language ..	113
Natural Language or Fifth Generation Language (5GL)	114
Problem - Solving and Programming	115
Algorithms	115
Flowchart	116
Some Examples of Algorithm and Flowchart	117
Control Structures in Program Design	119
Procedures and Program	121
Structured Programming	121
Object Oriented Programming (OOP)	122
Scripting Language	123
Server-Side Scripting	124
Questions	125

Chapter 5

WORD PROCESSOR

Concept	126
Features of Word Processing	126
Applications of Word Processing	127

Microsoft Word 2007	127
Working with Text	129
Saving Documents	130
Using the Proofing Features	132
Hyperlink	134
Printing the Documents	135
Working with New Documents	137
Text Formatting	138
Working with Text Box	140
OLE (Object Linking and Embedding)	143
Working with Clip Art	143
Using Different Shapes	145
Working with Template	147
Bullet and Numbering	149
Modifying Spacing	151
Page Layout and Formatting	152
Inserting and Modifying Pictures	154
Working with Columns and ordering objects	158
Working with Header and Footers	159
Inserting and Modifying Tables	160
Working with Graphics	164
Indents and Tabs	167
Styles and Themes	170
Mail Merge	174
Questions	177
Project Work	177

Chapter 6

SPREAD SHEET

Concept	178
Features of MS-Excel	178
Application of MS-Excel	179
Use of Excel for Data Analysis	179
Excel 2007	180
The Excel Window	180
Workbooks and Worksheets	181
Components of MS Excel	182
The Cell	183

Moving Around the Worksheet	183
Setting Up Your Excel Environment	184
Working with Simple Formulas	198
Printing Workbooks	204
Creating Complex Formulas	208
What is an Absolute Reference?	211
Working with Basic Functions	213
Some Important Functions	217
Solved Examples on Ms Excel	227
Sorting, Grouping, and Filtering Cells	231
Formatting Tables	236
Working with Worksheets	240
Using Templates	244
Using What-If Analysis	246
Working with Charts	249
Using Conditional Formatting	253
Creating Pivot Tables	255
Questions	259
Project Work	259

Chapter 7

PRESENTATION

Concept	260
Features of Power Point	260
Application of Power Point	261
How to Start	261
Power Point 2007	261
Power Point Environment	262
Creating New Presentations	265
Working with Slides	267
Saving Your Presentation	268
Working with Text	269
Themes and Background Styles	274
Working with Pictures and Clip Art	279
Bulleted Lists	285
Numbered Lists	287
Word Art and Shapes	289
Working with Tables	292

Inserting Charts	298
Other Important Commands on the Layout Tab	303
Working with Movies	303
Picture Tools Format Tab	305
Working with Sound	306
Animating Text and Objects	311
Introduction to Transitions	315
Advancing Slides	318
Working with Smart Art	328
Hyperlinks and Action Buttons	334
Arrange Objects	341
About Alignment	343
Group and Rotate Objects	344
Order Objects	346
Indentation and Line Spacing	347
Finalize a Presentation and Package for CD	352
Questions	358
Project Work	358

Chapter 8

DATABASE MANAGEMENT SYSTEM

File Processing Systems	359
Limitations of Flat File Processing Systems	360
Database Approach	361
Why MS Access known as RDBMS or DBMS?	365
Features of Ms Access	366
Datasheet Basics	366
Field Properties	367
Getting Started with Access	368
Parts of a Database	371
Thinking about Database Design	373
Creating a New Database with Access	375
Setting up Tables	377
Adding More Tables to the Database	378
Datasheet View of Added Field	380
Setting the Data Type for a Field	381
Data Validation	388
Using Field Properties to Ensure Data Integrity	389

Creating a Form	391
Making Forms More Usable with Controls	394
Setting Form Properties	395
Creating Command Buttons	398
Making Forms Attractive	399
Adding a Logo	400
Applying a Style with AutoFormat	400
Sorting Records	403
Filtering Records	405
Using Queries	410
Using Reports	416
Questions	424
Project Work	424

Chapter 9

INTERNET AND EMAIL

A Brief History of the Internet	425
What is the Internet?	425
Business Use of Internet	426
Advantages of Internet	427
Disadvantages of Internet	428
Some Important Web Terms	429
Connecting to the Internet	430
Modems and Web Browsers	430
Internet Service Providers	431
Search Engines	431
What is Email?	432
Anatomy of an Email Address	432
Top Level Domains	432
Types of Email Accounts	433
Advantages of Emails	433
Disadvantages of Emails	434
What is Outlook Express?	434
The Email Client Window	435
Main Features of an Email Client Window	435
Creating New Email Accounts in Outlook Express	436
Sending a New Message	439
Other Types of Mail	444

What is an Attachment? 446

Mail Server 448

Intranet & Extranet 448

Questions 451

Workshop 451

Chapter 10

PROJECT WORK

Project Development Life Cycle..... 452

Project Work..... 454

Bibliography **455**
